WARNING

Batteries must be installed correctly. Do not allow to cause permanent damage to the LED. Always follow the battery manufacturer’s instructions for the correct storage, handling and disposal of the batteries.

PRODUCT COMPONENTS

A. Front Assembly
B. AAA Battery Cradle
C. AAA Battery
D. O-Ring
E. End Cap / Switch Assembly

BATTERY INSTALLATION

AAA Battery Cradle Installation

1. Unplug the End Cap and remove the AAA Battery Cradle.
2. Insert 1 AAA battery (not included) as illustrated in Figure 2. On the end of the AAA Battery Cradle there are markings indicating positive (+) and negative (-). Insert the batteries into the cradle according to those markings.
3. Insert the AAA battery cradle back into the Front Assembly positive (+) end first (Figure 1).

Lithium-ion Battery Installation

1. Insert one Lithium-ion 18650 battery (not included) positive (+) first and firmly into the front assembly (Figure 3).

Atomic Beam double Power Icon to purchase your official Atomic Beam Lithium 18650 battery and wall charger.

OPERATION

There are three different lighting modes. To turn the flashlight on, press firmly down on the button located on the back of the flashlight. To turn the flashlight off, press firmly down the opposite to the button until you hear a click (Figure 4).

2. To switch through the different lighting modes, gently press down on the same button.

DIFFERENT LIGHTING MODES

FLASH | STROBE | LOW | HIGH

ZOOM

1. Turn the flashlight on.

2. Hold both ends of the flashlight and gently pull each end away from each other. This will change the zoom in and out.

3. Pull the two ends away from each other to zoom in and pull the two ends together to zoom out.

Important notes:

- The flashlight must be activated with the correct polarity or the LEDs and circuitry may be damaged.
- Do not remove the batteries when the flashlight is in use. If you need to remove the batteries, please turn off the flashlight by pressing down on the button located on the back of the flashlight, and disconnect the batteries from the flashlight before removing them.
